Ryder is about as sweet as they come. This big mushball has never met a stranger and just will come right up and lean against you to get endless pets. He is fantastic with other dogs (big and small) and goes out of his way to avoid any confrontatation. He is very laid back but then all of a sudden will get super goofy and do some crazy spin jump moves when he's excited that will make you crack up laughing. He was in the top 20 for 2019 and was top producing sire of Champions for 2019 with 7 offspring finishing that year!
